

Public Research & Regulation

Foundation with the objective to involve the public research sector in regulations and international agreements relevant to modern biotechnology

MOP3 - PRRI STATEMENT ON SUBSIDIARY BODY

Thank you Mr. Chairman,

I speak on behalf of the Foundation for Public Research and Regulation.

Mr. Chairman, with regard to the question of a subsidiary body, we believe that at this point in time it is preferable to rely on the system of technical ad hoc groups, which allows for flexibility on a need-basis.

The Ad Hoc Technical Expert Group on Risk Assessment is a good example of the value of such an approach.

Thank you very much for your attention
