

## PRRI Members

A large number of public research scientists and institutions, as well as other individuals and organisations have indicated endorsement of the Public Research and Regulation Initiative. Many of those wish to be informed about and actively involved in the activities of the initiative, such as providing comments on discussion papers prepared in the context of this initiative. Public sector scientists who endorse this initiative can register online under 'JOIN US'. Those who wish to actively participate in one or more of the Working Groups are invited to inform the Steering Committee through the Secretariat.

Currently about 270 public sector scientists and others have signed up to support the initiative and wish to be actively involved in the activities:
